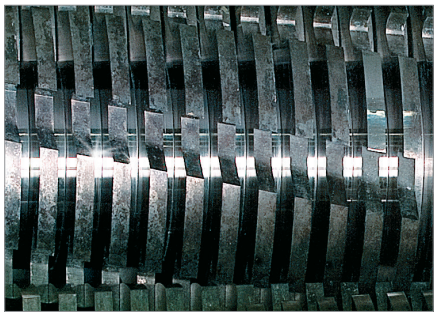
Product information

Clear signals showing the operating status of the heavy duty document shredder are vital. The functional operator control panel with an LED indicator provides this information very clearly.

The practical, fold-down storage area on the heavy duty document shredder allows you to store your stacks of paper or continuous paper.

We assumed that you just might want to move the device to a different place and so we designed it with castors!



Specially hardened solid steel cutting rollers

The induction-hardened solid steel cutting rollers are wear-resistant and guarantee durability.

Continuous operation

Powerful drive allows continuous operation.

Functional operator control panel with LED indicator

Clear signals showing the operating status of the data shredder are vital. The functional operator control panel with an LED indicator provides this information very clearly.

Convenient working height

The height at which the data media is inserted into the shredder means working with it is easy and convenient.

User safety through emergency off switch

It may be necessary to stop the machine immediately so we have equipped the device with an emergency off switch.

Effortless emptying

The device has a removable trolley (easy to get out of the machine) and the collecting bag itself can be re-used.
