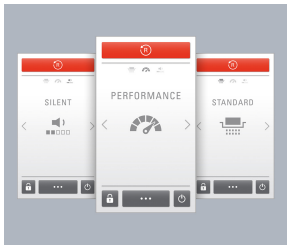
Product information



The innovative IntelligentDrive motor and operating technology offers three operating modes. Either for a particularly quiet, normal or a up to 40 % higher performance data destruction

This maintenance friendly document shredder has an integrated automatic oiler which ensures that you have a consistently high cutting capacity.

The induction-hardened, solid steel cutting rollers guarantee durability.

For continuous operation

The powerful motor ensures a high cutting capacity and reliable continuous operation.

Energy-saving

In stand-by mode, intelligent control programme EcoSmart ensures there is an exceptionally low power consumption of 0.1 watts.

Automatic start/stop

The operation is very easy: the device starts automatically when fed paper and automatically stops after shredding is complete.

Anti-paper jam function

Intelligent paper jam prevention. The machine recognises very quickly if too much paper has been fed in and reacts autonomously.

High level of user safety

User safety is paramount. A slight pressure on the safety element immediately stops the paper feed and prevents unintentional entry into the machine.

Convenient emptying

Robust wooden cabinet with castors. After opening the door, the reusable collecting bag can be easily removed and emptied.

Made in Germany · 5 year warranty · 3 year warranty · cutting roller warranty · quiet operation · anti jam · safety system · green choice
